

BILSTEIN B16 ridecontrol® Electronic suspensions

BILSTEIN B16 ridecontrol®

Sportiness at the touch of a button.

In the blink of an eye, you can switch the suspension setting from “comfort” to “sport” mid-journey by simply touching a button in the cockpit.

The product benefits at a glance:

- “Comfort” mode creates smooth compensation for uneven surfaces
- “Sport” mode for excellent driving dynamics and maximum power reserves in limited applications
- Illuminated operator panel for controlling settings
- Threaded body adjustable range of 20 mm at both axles, while installed
- Lowering of approx. 30-50 mm at front and rear
- Road-tested by BILSTEIN under motor sports conditions and fine-tuned
- Spring plates and lock nuts made from a special aluminium alloy
- Surface coating using Triple-C-Technology® for long-lasting corrosion resistance
- Round threads for perfect handling
- Quality sport springs made from highly durable material
- BILSTEIN gas pressure technology
- BILSTEIN mono-tube/Upside-Down technology, made in Germany
- German TÜV certificate

BILSTEIN-TECHNOLOGY tested on
NÜRBURGRING-NORDSCHLEIFE

The perfect settings for every setting.

It's all about the setting

Take the children to school in the morning, go to the shops in convenience and comfort in the afternoon – and get the most out of every curve in the road in between. For drivers who don't want to compromise on comfort or sportiness, our engineers have developed the perfect technology.

- Characteristic curve pairs given a multitude of road tests
- Parallel settings in rebound and compression cycles, for balanced driving characteristics
- Driving characteristics settings that suit individual needs perfectly

ridecontrol®

- An exclusive system that enables settings to be made by means of pushbuttons on the controller
- Lightning-quick switching from convenient "normal" mode to high-powered "sport" setting
